The Directors are pleased to announce that Scott Technology Limited has today settled on the transaction to acquire a 75% controlling share in Teknatool International Limited's Qingdao based manufacturing company, and renamed it QMT Machinery Technology (Qingdao) Co., Ltd ('QMT').

Further information is contained in the 29 June 2011 announcement of the signing of the conditional agreement. It has taken several months to go through the required process to obtain approvals from relevant Chinese authorities.

Yours faithfully
