Dear Sir/Madam

TRADING UPDATE

The Directors of Scott Technology wish to advise that due to the fast changing environment we are experiencing, it is appropriate to provide a trading update.

Scott Technology's revenue line remains solid and our order book is at good levels, providing us with a level of comfort over our forward work situation. The rapid appreciation of the New Zealand dollar, combined with the continuation of the global slow down in the Mining sector, is having an impact on our margins in the short term.

The company continues to review its operations with a view to mitigating the risk of further New Zealand dollar appreciation.

Yours faithfully

S J McLauchlan
Chairman
